

AMAZING EMU OIL

Over 4,000 years ago, the Australian Aborigines discovered the healing virtues of Emu oil. After a hunt, they would wrap their elders in the skin of the Emu and almost instantly their pain would disappear.

Today Emu oil is used by professional athletes to heal injuries, in burn centers worldwide, and by people just like you and I to relieve pain and swelling, and to generate new, healthy skin.

We donate 10% of our sales to help refugees living in Idaho.

Emu oil penetrates into deep tissue and joints within seconds, carrying other ingredients with it to intensify the healing. It draws blood into the area, increasing circulation, decreasing swelling, and relieving pain. Rich in antioxidants, it heals skin rapidly, replacing damaged cells with healthy ones.

OUR STORY

I was caring for my sister following cancer surgery when we tried applying Emu oil as a natural pain reliever. Amazingly the pain disappeared for hours! With continued use, the oil accelerated the healing, reduced swelling and even faded the scar.

Since then, I have been devoted to sharing this miracle of nature with others. Emu oil helps relieve the pain of arthritis, injuries, and replaces damaged skin cells with healthy ones - making it one of the best anti-aging ingredients you can use. By combining Emu oil with organic essential oils, herbs and other natural ingredients, I have created a line of very original and very healing formulas that people from all over the country have come to love.

10% of sales are donated to refugee assistance.

Your purchases help others. In 2009 we were able to help refugee families in Southwest Idaho with clothing, transportation expense, employment and more. In 2010, we hope to double the assistance and make it go farther by joining with other refugee organizations to maximize and expand the benefits.

Thank you for your purchases! Please, let us know if you would like to try a free sample of any of our products. It is such a pleasure to serve you. It really makes my day!
